Safe School Hotline

With the record school shootings, the need for schools to have a vehicle in place for student's to feel safe in reporting information on planned acts of violence or crime on campuses has heightened. The Secret Service and the Center for Education both agree that students are our best tool in keeping schools safe. It is with this premise, that Crimestoppers implemented the Safe School Hotline. The Crimestoppers Safe School Hotline began in New Orleans after the 2003 John McDonough shooting. Even though our Safe School Hotline was not yet in place, it was a tip to Crimestoppers that led investigators to the perpetrators of this horrible crime.

Since inception of the Safe School Program in 2003, Crimestoppers has received over **350 calls**, resulting in **200 tips** from the Safe School Hotline and has been responsible for solving **75 campus crimes**, with a total of over **\$14,500** paid out in cash rewards.

The Crimestoppers Safe School Hotline to date has been instrumental in taking **10 guns, 5 knives and 1 homemade billy club** off school campuses. Besides weapons, students are able to call the Safe School Hotline on drugs, thefts, threat of violence, bullying, assaults and any other major school violations. The intent of the Hotline is to be preventative in nature allowing students to be empowered to make a difference in the safety of their school.

Presently, the Safe School Hotline Program is being administered in Jefferson, Orleans, St. John and St. Tammany Parishes. We hope to expand our program into the remaining parishes in the near future but **additional funds are needed.**

All proceeds from the golf tournament will be directed to the operation of Crimestoppers Safe School Hotline. Your participation and generosity is greatly appreciated.
